EXPERIENCE

Senior Front End Web Engineer (Contract), Docker, Portland, OR (Remote) **Feb 2026 - Present**

Technical skills: React.js, Wordpress, JavaScript, CSS, Sass, HTML, PHP, Webpack, Agentic AI development

- Prototyped an agentic development based solution to simplify Jira ticket intake and to translate multiple content formats into a custom Wordpress theme's block structure
- Architected and launched a new style guide to improve design system literacy and page building speed
- Conducted rapid sprint-based development cycles to build a new product site, which included translating Figma and Claude-based visual direction into an accessible front-end system
- Build and maintain a system of 160+ custom Wordpress Gutenberg blocks using React.js, Javascript, CSS, and PHP

Senior Front End Web Engineer II, Smartsheet, Portland, OR (Remote)

May 2018 - Dec 2025

Previous titles: Senior Front End Developer, Front End Developer

Technical skills: JavaScript, CSS, Sass, HTML, Drupal, jQuery, PatternLab, Figma, Twig, PHP

- Redesigned and migrated enterprise websites into component-based design systems, resulting in \$1MM ARR within 8 months of launch
- Spearheaded front-end accessibility remediation, exceeding goal of 90%+ WCAG 2.1 AA compliance
- Boosted form conversion rates by over 20% through integration of ZoomInfo's FormComplete API
- Supported search API migration from Coveo to OpenSearch, leading to \$150k in annual cost savings
- Collaborated with UI/UX designers and stakeholders to turn designs into accessible, responsive features
- Supported the engineering team through mentorship, code reviews, pair programming, and training
- Awarded President's Club Impact Maker for contributions to Demand Generation and SEO KPIs

Full Stack Web Developer, General Assembly, Seattle, WA **Nov 2017 - Feb 2018**
Technical skills: JavaScript, CSS, HTML, React.js, Node.js, Express.js, Bootstrap

- Designed and deployed MERN stack applications using front-end frameworks and REST APIs
- Developed responsive React components that managed state and handled CRUD operations
- Used whiteboarding, wireframing, and Agile methods during project sprints

Traffic Manager, Avana Digital Studio, Seattle, WA **May 2016 - Nov 2017**

- Facilitated project staffing for 150 cross-functional resources across 4 digital agency locations
- Pioneered processes to help the team grow headcount by 400% in one year
- Improved chargeability 20% by finding solutions to maximize resource utilization

Traffic Manager, Rusty George Creative, Tacoma, WA **May 2011 - Apr 2016**
Previous titles: Client Services Coordinator, Intern

- Built processes to improve workflow and accuracy in timelines for design and web development
- Partnered with the web development team to populate content into WordPress websites
- Created and monitored all project timelines and account invoices

Marketing Assistant, Coldwell Banker Bain, Tacoma, WA **June 2011 - Dec 2011**

- Created print collateral following brand and style guidelines
- Promoted new home listings through the creation of virtual tours
- Edited photographs for use in web and print advertising

Development Intern, Tacoma Art Museum, Tacoma, WA **Sept 2010 - May 2011**

- Conducted research on prospective donors and maintained database records
- Contributed to the success of the annual gala through auction item management and guest registration
